## MR. USE IT...

by Bernard J. Wechsler

In today's high price structure, we throw out very useful items. This column is to show to save things to create a useful by-product.

Take a 2 litre plastic bottle, whether double or single bottom cut off with sharp knife or shears USE IT for plant pot holder as shown below. When you leave for a vacation fill with water so plant will have enough for 1 or 2 weeks, and the plant will water itself.

Use the rest of the top part for a funnel for liquids or dry-goods..

**DOES THIS SOUND  
LIKE YOU?**

I just sit at the Bar  
on a nice soft stool,  
And I shoot off my mouth  
like a damn old fool,  
And I say what I like  
am I sure to criticize  
And half of what I say  
is nothing but lies.  
I can tell what is wrong  
With this club of yours,  
And go on complaining  
for hours and hours.  
WHAT! Me attend meetings  
are you out of your mind?  
Of course, I can't be there  
I don't have time!
