Please note the special meeting date. There is a Church dinner on May 1 for Ascension Thursday. We have scheduled a joint meeting with Queens Colony May 8. **Dues letters** will be sent out in the next week or two. ID cards will be included for those who requested with last year's dues. Thanks to those of you who sent extra payments or donations. We truly appreciate your generosity.

311 Look-up—Service requests/complaints are now available on-line with your reference number. You can check the status of items within 45 days of the request at www.nyc.gov/portal/site/threeneone. Try it.

Rainbarrel Project—NYC DEP has initiated a pilot project in our area to demonstrate the use of rainbarrels on one-family homes to save water and reduce runoff. DEP is looking for 250 volunteers by June 1 to use the rainbarrels for a two year pilot, after which the equipment will be the property of the homeowner. All equipment and materials will be provided by DEP, but the homeowner will be responsible for installation and maintenance and to allow occasional access for monitoring.

The program uses special sealed 55 gallon drums attached to your downspout to collect rainwater for use in watering plants. The water is non-potable. A spigot near the bottom is used to fill watering cans or drip hoses. There is no cost to the homeowner. Let us know if you are interested.
